RAISING MONEY TO BRING COMFORT TO MANY

We're the charity dedicated to supporting people who are being treated for cancer and haematology illnesses by Buckinghamshire Healthcare NHS Trust.

Your incredible fund raising efforts enable us to provide additional comforts and support for patients receiving treatment and care.

We help by funding:

- key treatment facilities (such as a modular eco building, sited alongside Stoke Mandeville Hospital's Cancer Care and Haematology Unit, for use as a pleasant, non-clinical space by staff with patients and their families)
- specialist clinical equipment
- free wigs for patients
- a cancer information and wellbeing service for patients
- environmental enhancements to treatment units

ENHANCING ENVIRONMENTS DEVELOPING AREAS THAT ENCOURAGE CALM

The Cancer Care and Haematology Fund are acutely aware of how, not just the treatment areas, but the surrounding environments can impact patients and their families and friends during treatment.

From something simple such as new waiting area chairs to funding the extensive garden renovations at CCHU, we are here to help. By transforming the underused outdoor space we now have created a tranquil, garden environment for patients and their families and staff to sit and relax.

Your donations saw this dream realised, helped by individuals and businesses who volunteered and supported us in completing this beautiful garden.

HOLD AN EVENT

We have been grateful to all who have put an occasion together to raise awareness of this charity. These include, coffee mornings, cake sales, dinner and dance and other special events.

We like to hear about what is planned in advance so we can provide information and support.

CLINICAL EQUIPMENT

CREATING COMFORT DURING TREATMENT

Having the right equipment to enhance comfort levels for patients is very important to us and the treatment units we support. Thanks to those who generously donate to CCHF we have been able to pay for the most technologically advanced infusion pumps for chemotherapy, smart scalp cooling machines that can reduce hair loss for some patients, modern wheelchairs, and folding beds for use by friends and family when they need to be with patients on hospital wards.

WIGS FOR PATIENTS

WIGS FOR PATIENTS RESPECTING DIGNITY, BUILDING CONFIDENCE

For many patients facing chemotherapy, the news that they may lose their hair causes great distress. Since 2011, your fundraising has enabled CCHF to ensure that Wigs for Patients service is free for cancer patients at Stoke Mandeville and Wycombe hospitals.

SPONSORED ACTIVITIES

CCHF has benefitted from sponsored runs, including the London Marathon, from sponsored walks around the Aylesbury Ring and climbs on Everest, students cycling from London to Istanbul, and a sponsored football game at MK Dons.
